

# Emerald Pot Pairing Vendor Information

*Saturday, Sept. 10, 2016*

*Emerald Magazine* will showcase the full spectrum of the Emerald Triangle's artisanal craftsmanship at The *Emerald Pot Pairing*! Local food, beer, wine, desserts, and cannabis infusions will be available for the tasting delight of those who attend. The *Emerald Pot Pairing* will highlight the best of the region and give attendees a unique, sophisticated experience.

Our event at Ladybug Estates will host a menu of pairings throughout the afternoon with samples from our vendors paired together in an appetizing array. Scheduled pairings of Emerald Triangle products will be arranged by event staff throughout the event, and samples from your company will be paired with other local products in a guided tasting. We recommend your brand have a representative present to discuss your element of the pairing for a more personal connection with our guests during these times. Cannabis infused consumables may only have a medicated level of up to 3-5 mg THC in each individual sample.

Guests will sample these pairings then make their way to the booths of local producers and vendors while enjoying the sunny Eel River Valley and music from the Redwood Ramblers. Legal sales will be allowed in the vendor booths.
